

WHITE OAK

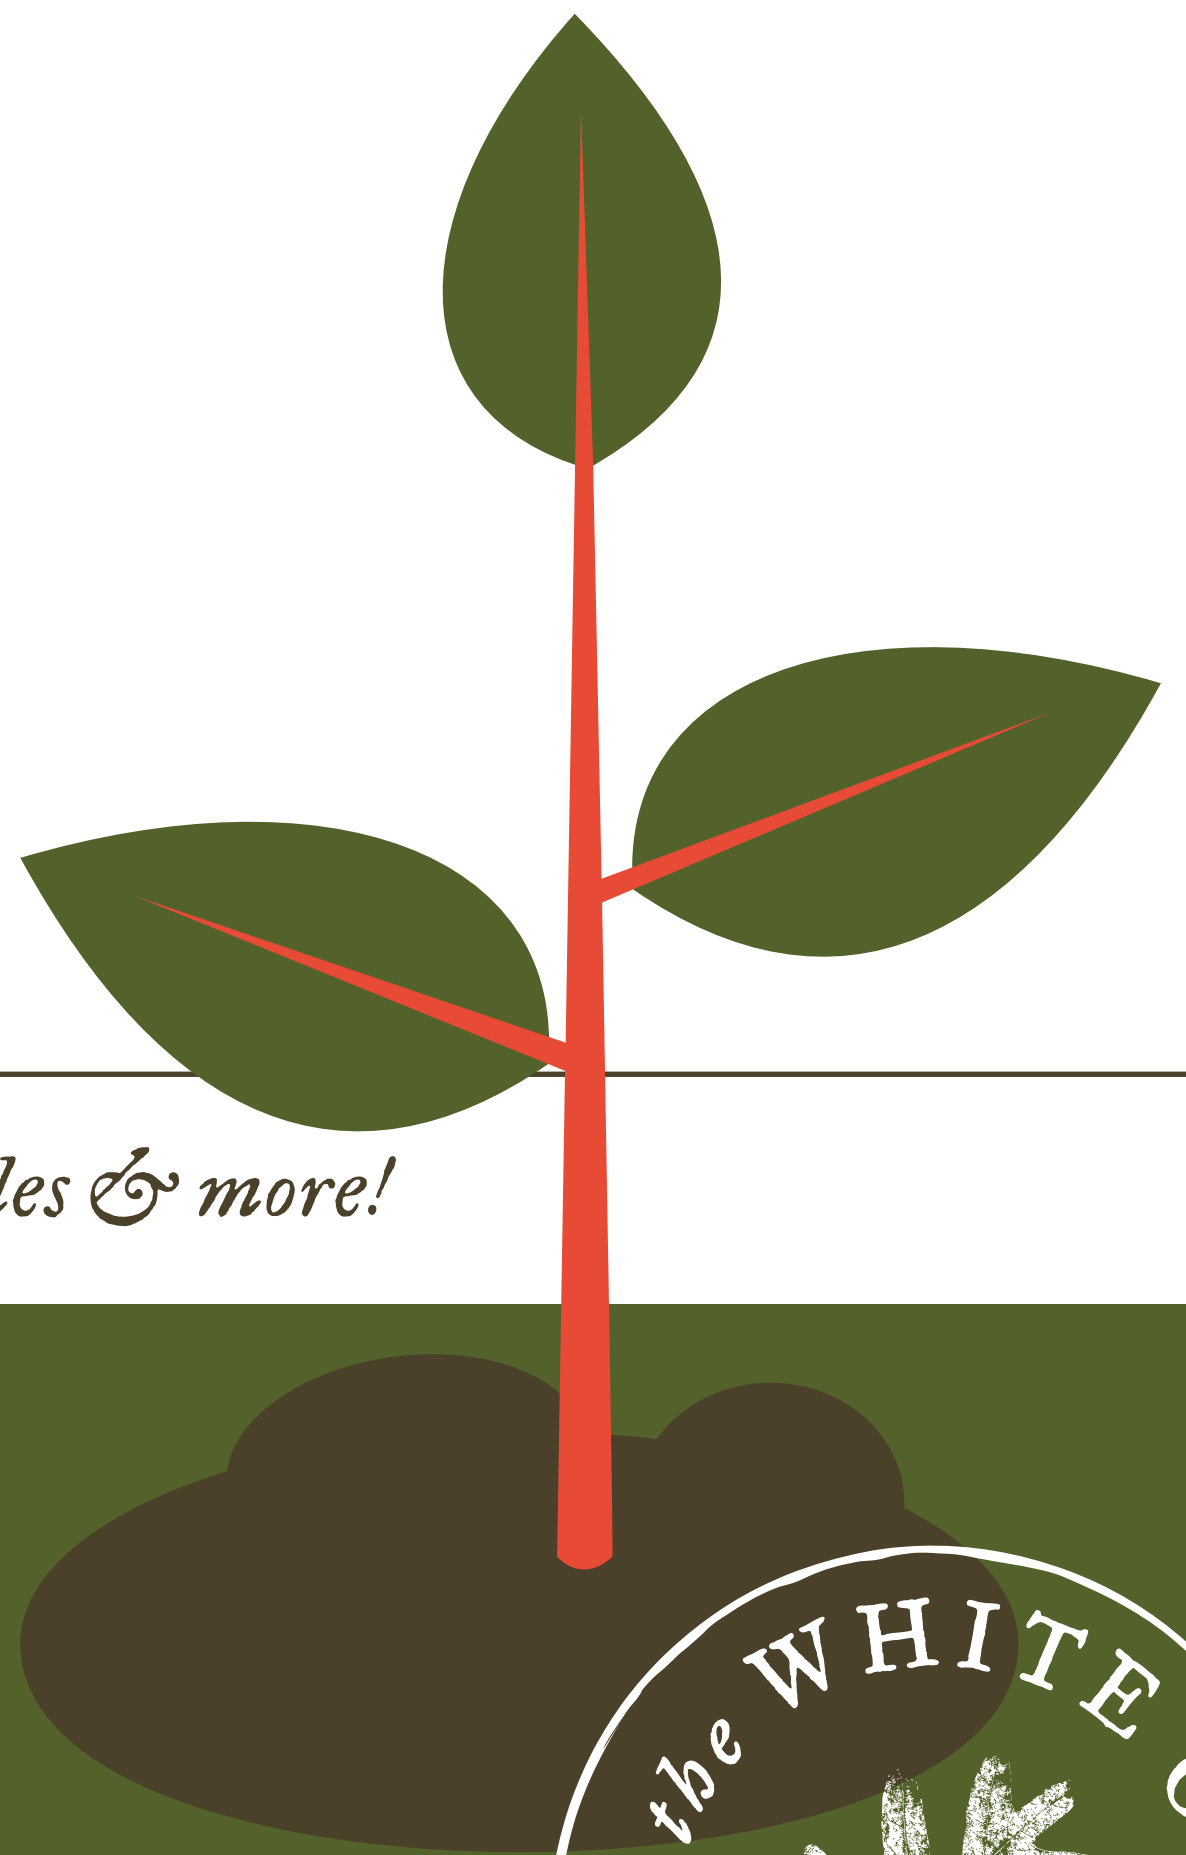

GARDENS

For planting trees, shrubs, perennials, flowers, vegetables & more!

ORGANIC PLANTING MIX

OUR WHITE OAK ORGANIC PLANTING MIX is specially formulated for growing robust plants in the Cincinnati region. Used as a soil amendment or a top-dress mulch, White Oak Organic Planting Mix adds beneficial microbes and breaks-up heavy clay soils creating an environment for **FAVORABLE ROOT GROWTH AND DEVELOPMENT**. This results in healthy, vibrant plants and high-yielding food-producing gardens.

ORGANIC
INGREDIENTS

PINE BARK
COMPOST

COCONUT
FIBER

Our formula uses COMPOST and COCONUT FIBER as a more sustainable alternative to peat moss.

WHITE OAK
GARDENS
ORGANIC
PLANTING
MIX

OUR SPECIALLY FORMULATED WHITE OAK
ORGANIC PLANTING MIX HAS MANY USES:

- » As a soil amendment when planting trees, shrubs, perennials and flowers.
- » As a soil additive for vegetable and raised-bed gardens.
- » As a top dress mulch for ornamental and food-producing garden beds.

ORGANIC PLANTING MIX INGREDIENTS:
Pine Bark, Compost, Coconut Fiber

BE SUCCESSFUL & PLANT
THE WHITE OAK WAY!

1. **DIG HOLE** 50% wider than and only as deep as the root ball.
2. **PREPARE SOIL** by mixing 2/3 of existing soil with 1/3 of **WHITE OAK ORGANIC PLANTING MIX** and the recommended amount of starter plant food.
3. **IF PLANT IS IN CONTAINER**, remove from container and loosen roots.
4. **IF FIELD-GROWN**, place in hole and remove wire, cords, twine and loosen burlap.
5. **SET PLANT IN HOLE** so that the root flare is 1-3" above grade/ground.
6. **BACKFILL** with amended soil up to and over the edge of the root ball keeping soil away from root flare.
7. **ADD A 2" LAYER OF MULCH** and keep mulch from coming into contact with the trunk.
8. **ASK OUR PLANT EXPERTS** how much and how often to water newly installed plants.

WHITE OAK ORGANIC PLANTING MIX WAS
PRODUCED AND BAGGED FOR WHITE OAK GARDENS
BY THE ORGANIC MECHANICS SOIL COMPANY, LLC,
PO BOX 272, MODENA, PA 19358; 610-380-4598.
